Global Terror Analysis

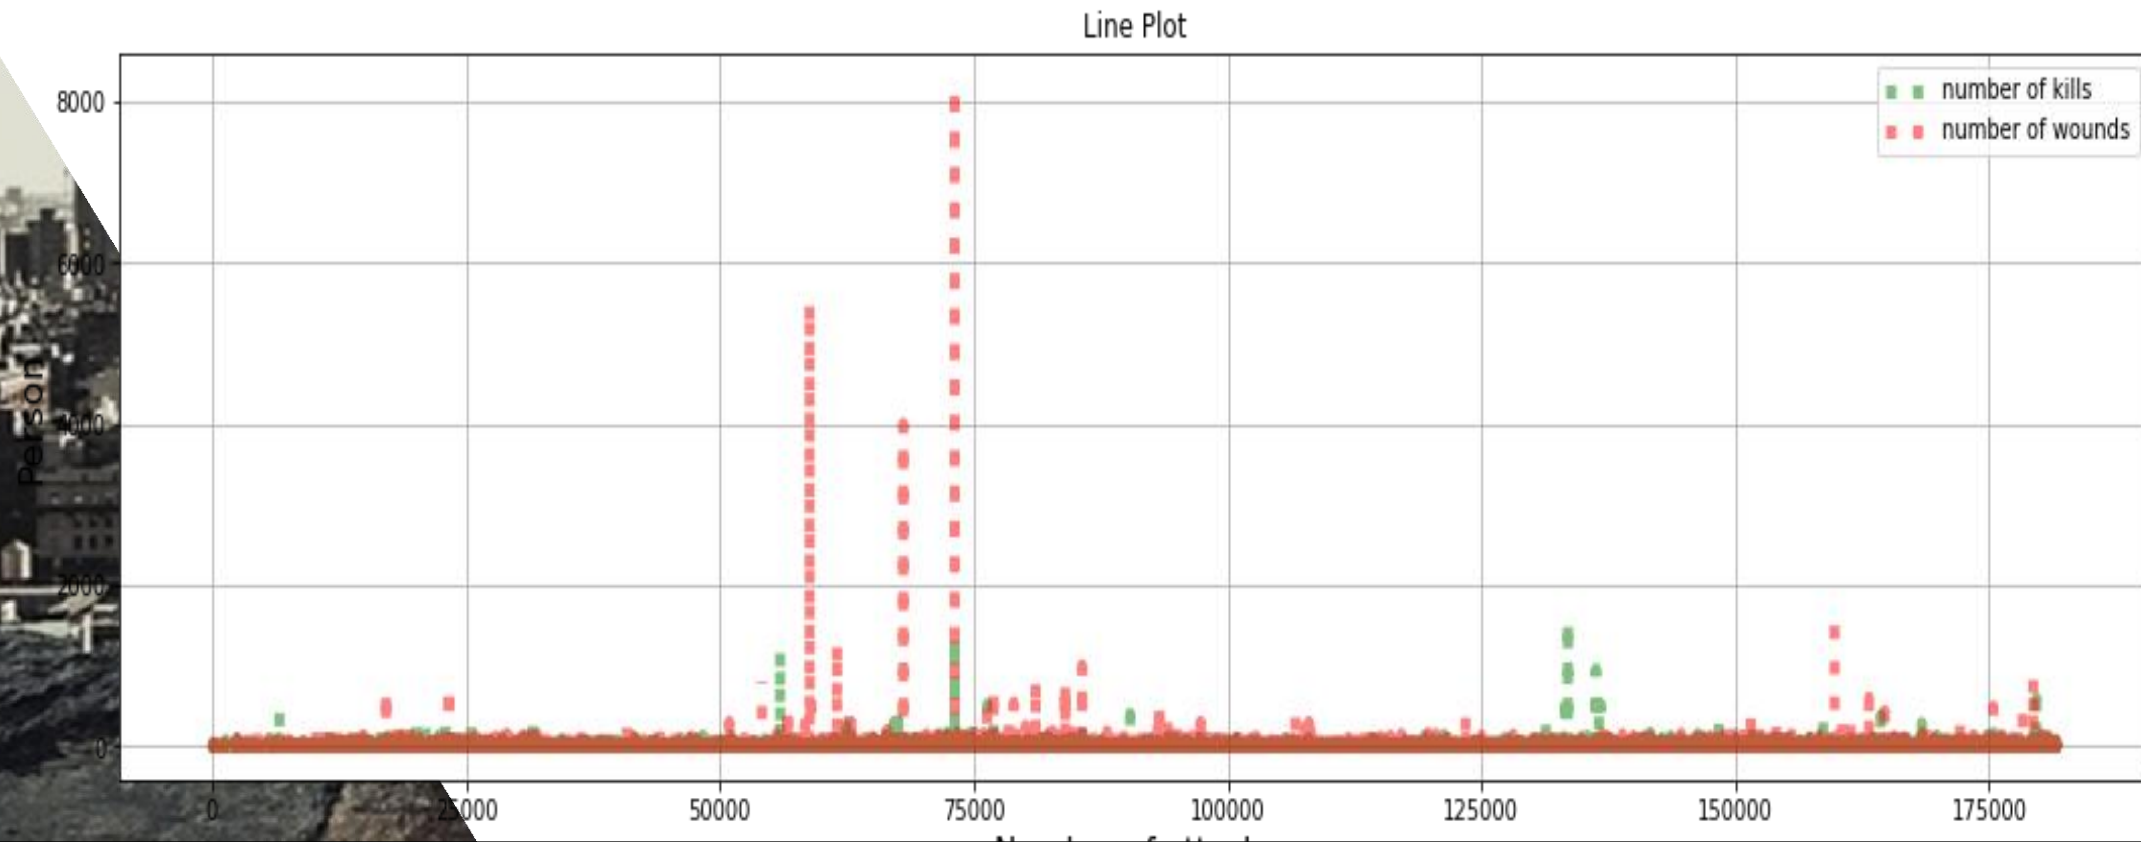

This data is on the rising Terror, in which many innocent people were killed and how many were injured

The Global Terrorism Database (GTD) is an open-source database including information on terrorist attacks around the world from 1970 through 2017. The GTD includes systematic data on domestic as well as international terrorist incidents that have occurred during this time period and now includes more than 180,000 attacks. The database is maintained by researchers at the National Consortium for the Study of Terrorism and Responses to Terrorism (START)

Number Of RECORD

According to the data, the authorities collected a total of 181690 attacks between the period 1970 and 2017, in which we found that 411868 people were killed and others were injured.

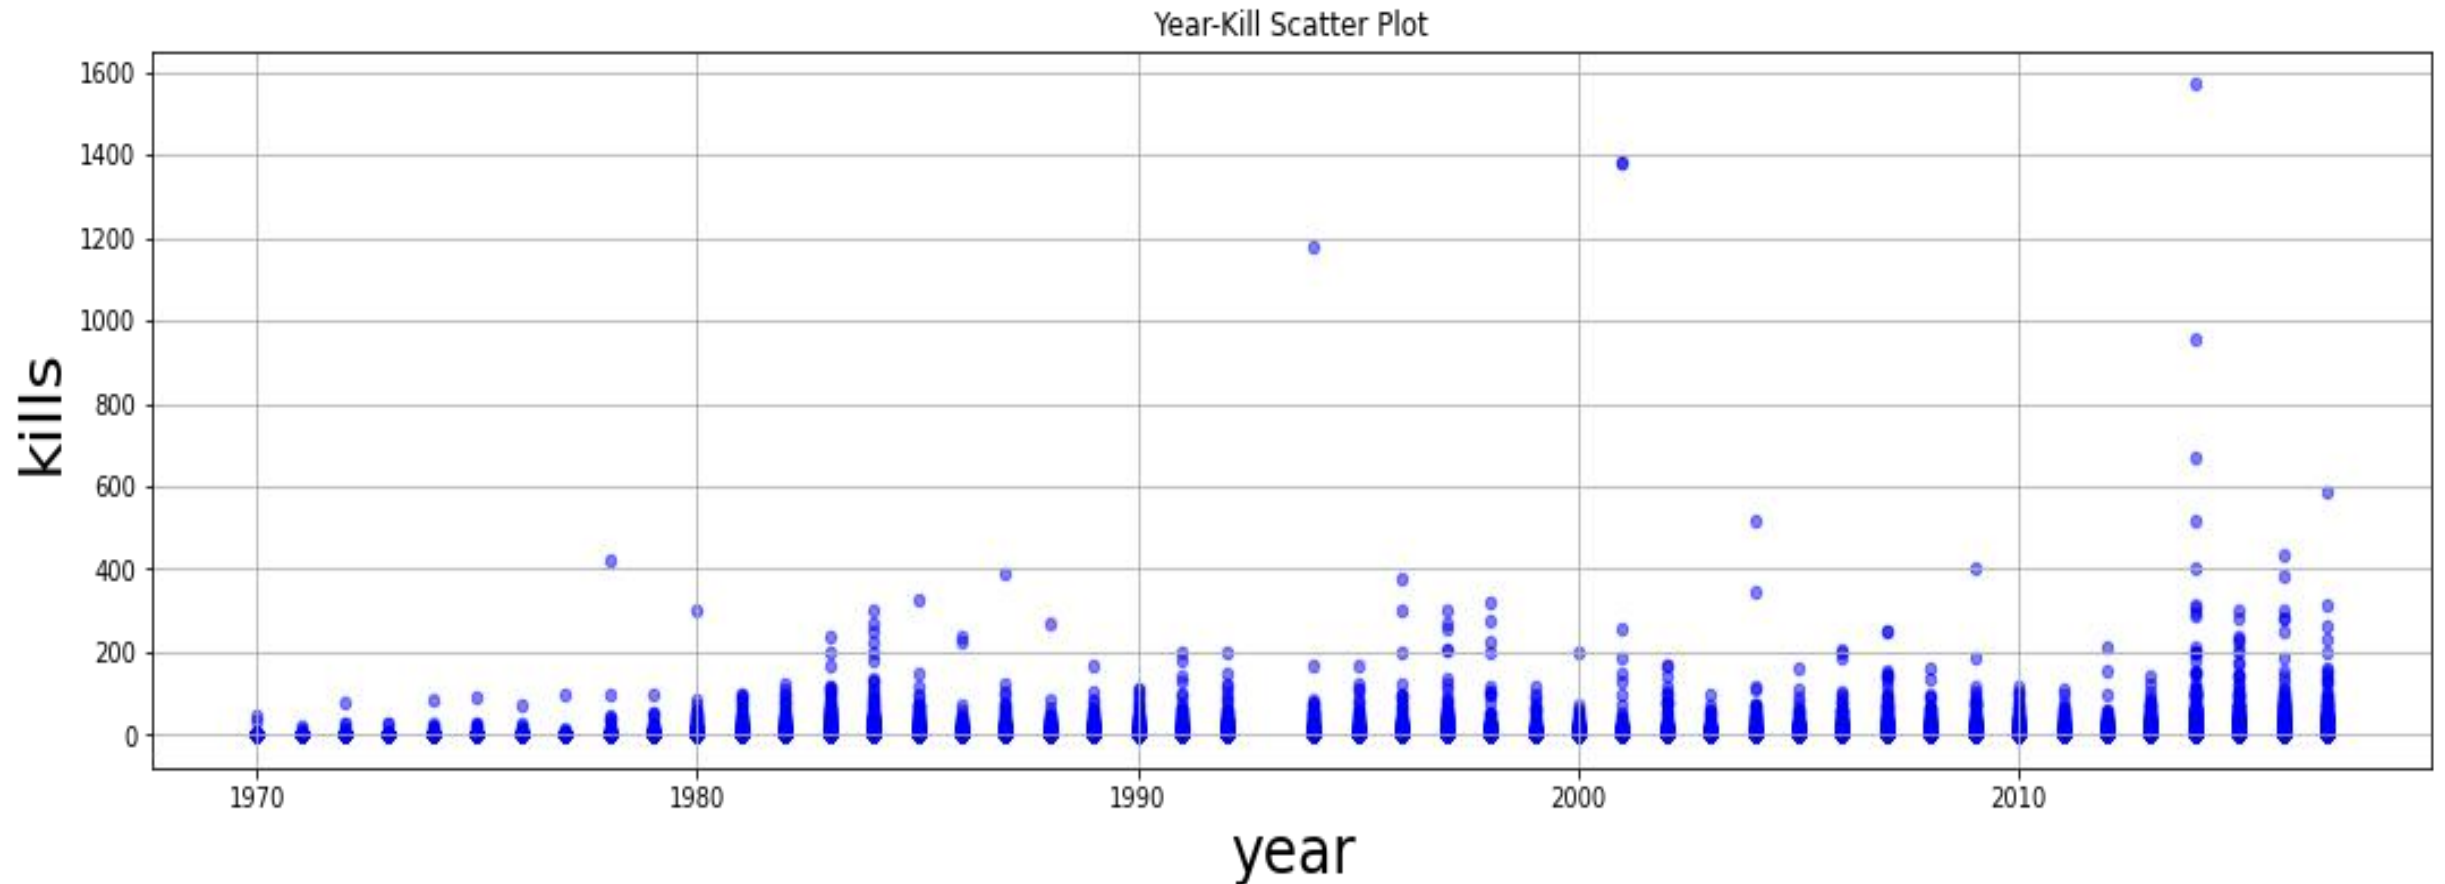

Altogether we can see 523869 injured victims.

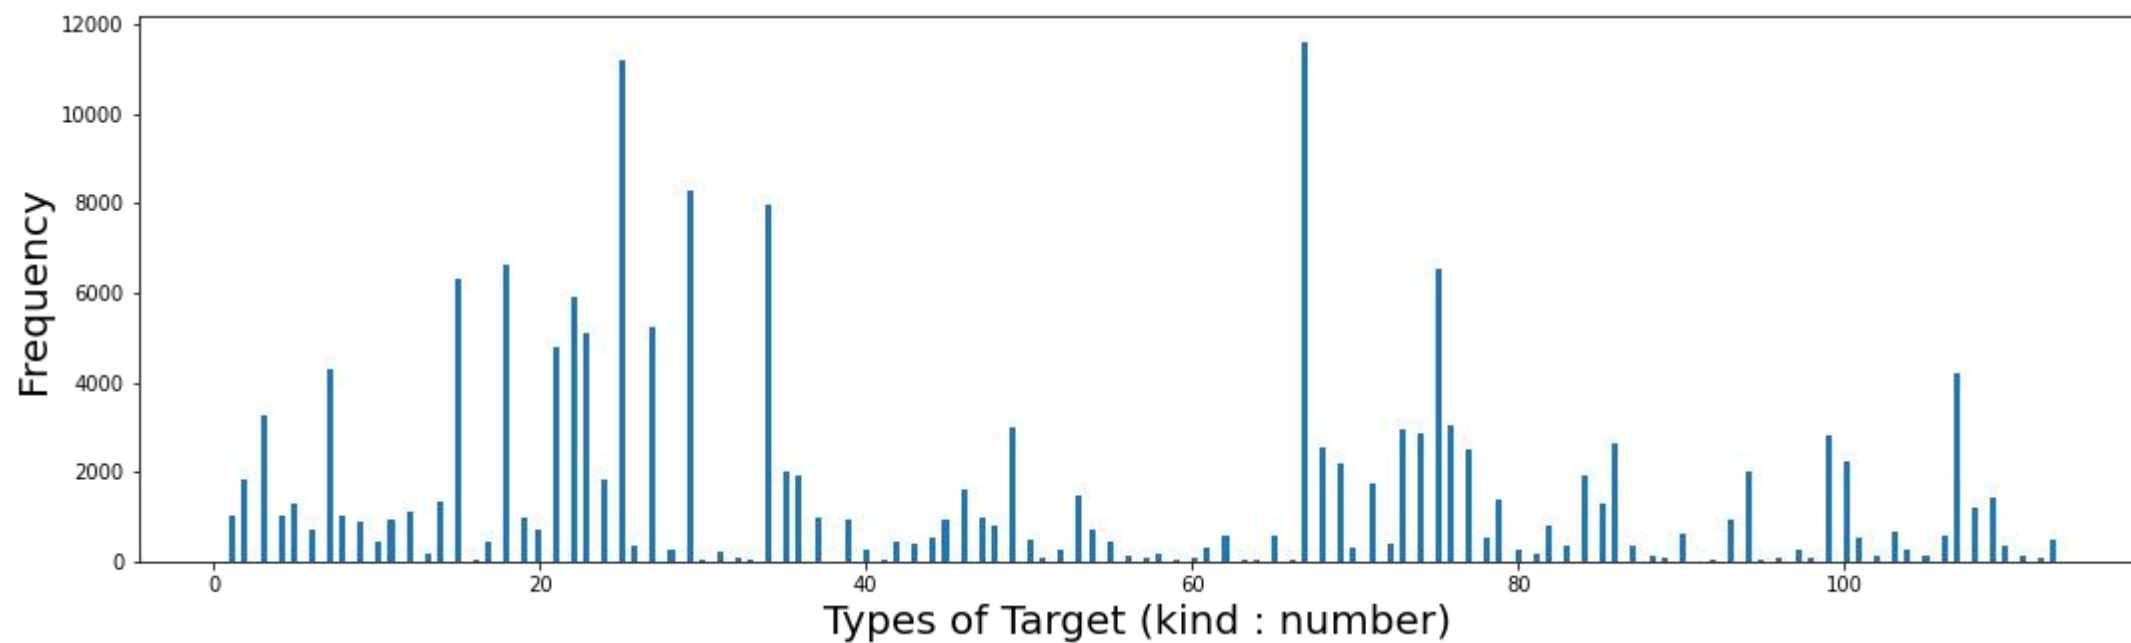

► Kill Per Year

A 2017 report by The Nation Institute and the Center for Investigative Reporting analyzed a list of the terrorist incidents which occurred in the US between 2008 and 2016.[24] It found:[25]

115 far-right inspired terrorist incidents. 35% of these incidents were foiled (this number means that no terrorist attacks occurred) and 29% of them resulted in fatalities. These incidents caused 79 deaths.

Targeted Cities by Terrorists

Conclusion

he countries with the most attacks such as Iraq, Pakistan, Afghanistan, India, Colombia should all be more alert about security and at the international level, all these countries should be helped by giving security or by giving necessary weapons.

Overall Recorded Terror Attacks is around 1,81,690 between 1970 to 2017.

The country most prone to terrorist attacks was Iraq, who withstood 24,636 attacks

The highest jump in terrorist attacks was seen in 2014, with 85618 attacks.

Between 1970 and 2017, the death toll went up to 4,11,868 and the injured were 5,23,869.

A person with dark hair, wearing a dark hooded jacket, is seen from behind, looking out over a dense city skyline. The skyline includes several tall skyscrapers, with the Freedom Tower being the most prominent one in the center. The person is standing on a dark, rocky ledge. A large, white, semi-transparent arrow points from the left towards the right, passing behind the person. The text '1970 TO 2017' is written in a red, serif font, and 'THANKS' is written in a black, sans-serif font, both positioned to the left of the person and partially overlaid by the white arrow.

1970 TO 2017

THANKS
